

# WAYCROSS COMMUNITY MEDIA

## 2009 Annual Report

Thanks to our  
2009 Contributors

As you will see in the following pages, Waycross had a great 2009. Our staff, volunteers, and producers continued to do what they do best - connecting our communities to their governments, schools, and neighbors. Requests for service increased, not only in the public access arena, but in the government and educational areas as well.

New local programming produced and cablecast increased 6% versus 2008. In addition, a survey of the residents in our communities by a national firm found that 56.5% of the cable subscribers have watched Waycross programming and of those, 84.5% watched in the last month. And, while it appears that most of our residents still get their information from traditional TV sources (only 20% report having ever watched video online), we had over 100,000 viewings of our programs via the Video On Demand portion of our website.

In fall 2009 we added the Government Access Channel (23) to our online viewing options. Residents without cable can now watch this channel, including live programming - such as council/trustee meetings, live election forums, and more - via a link on our website. Watch for our Educational access channel to go online in early 2010.

I would like to thank each of you - whether you are a volunteer, producer, board member, viewer, sponsor, community supporter, or elected official - for your support.
